Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

In view of the Appeal Brief filed on April 30, 2004, PROSECUTION IS HEREBY REOPENED. A new office action is set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

- (1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,
- (2) request reinstatement of the appeal.

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 6-7, 9-11, 14, 16-17, 19, and 24-25 are rejected under 35 U.S.C. 102(b) as being anticipated by Keele et al. U.S. Patent No. 5,438,674 ('Keele').

Keele discloses:

Art Unit: 2175

As to claim 1,

examining a set of files selected to be recorded on the optical disc; See 18:45-67;

creating a record data structure for each file in the set of files to be recorded on the optical disc; See 18:45-67; 42:52-67;

generating a set of pointers to associate the record data structures with a writing order; See 43:15-53;

processing each of the record data structures one after another in the writing order to produce ordering data structures for each file in the set of files; See 43:15-53; and

processing the ordering data structures to write the set of files onto the optical disc in the writing order; See 43:10-67.

As to claim 6,

wherein the processing of the ordering data structures includes passing the ordering data structures to a CD recording engine, the CD recording engine writing the set of files onto the optical disc in the writing order; See 43:10-67.

As to claim 7,

receiving a request to write the set of files; See 43:10-67.

As to claim 9,

generating a set of pointers to associate record data structures with a writing order; See previous corresponding response above;

processing each of the record data structures one after another in the writing order to produce ordering data structures for each file in a set of files; See previous corresponding response above; and

processing the ordering data structures to write the set of files onto the optical disc in the writing order; See previous corresponding response above.

As to claim 10,

examining a set of files selected to be recorded on the optical disc; See previous corresponding response above.

As to claim 11,

creating a record data structure for each file in the set of files to be recorded on the optical disc; See previous corresponding response above.

Art Unit: 2175

As to claim 14,

wherein each of the ordering data structures include pointers to a source file; See 42:52-67; 43:1-27; 46:40-45.

As to claim 16,

wherein the processing of the ordering data structures includes passing the ordering data structures to a CD recording engine, the CD recording engine writing the set of files onto the optical disc in the writing order; See previous corresponding response above.

As to claim 17,

receiving a request to write the set of files; See previous corresponding response above.

As to claim 19,

program instructions for examining a set of files selected to be recorded on the optical disc; See previous corresponding response above;

program instructions for creating a record data structure for each file in the set of files to be recorded on the optical disc; See previous corresponding response above;

program instructions for generating a set of pointers to associate record data structures with a writing order; See previous corresponding response above;

Art Unit: 2175

program instructions for processing each of the record data structures one after another in the writing order to produce ordering data structures for each file in a set of files; See previous corresponding response above; and

program instructions for processing the ordering data structures to write the set of files onto the optical disc in the writing order; See previous corresponding response above.

As to claim 24,

wherein the processing of the ordering data structures includes program instructions for passing the ordering data structures to a CD recording engine, the CD recording engine writing the set of files onto the optical disc in the writing order; See previous corresponding response above.

As to claim 25,

receiving a request to write the set of files; See previous corresponding response above.

Allowable Subject Matter

Claims 2-5, 8, 12-13, 15, 18, 20-23 and 26 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charles L. Rones whose telephone number is 703-306-3030. The examiner can normally be reached on Monday-Thursday 8am-4pm.

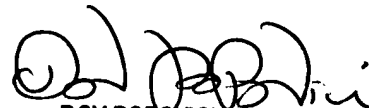

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dov Popovici can be reached on 703-305-3830. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
